Mr. Baoquoc N. To
Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Reply to Your "Response to Rule 312 Communication"

Dear Mr. To,

This letter is to reply to your "Response to Rule 312 Communication" mailed to me on June 22, 2010. I could not find the fee for amendment under Rule 37 CFR 1.21. If I need to pay any amendment fee, please let me know the exact rule and amount.

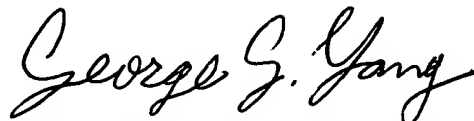

Enclosed are the clean version of amended new Claims 1-5 and a floppy disk. I canceled claims 1 & 3 and rewrite claims 2 & 4-7 as you advised in the earlier communications.

I sent you a letter and the clean version and marked version of the amended specification of my patent application with original Claims 1-7 and an electric floppy disk with the clean version files on June 24, 2010. I have made some minor amendments to the specification including claims and figures by adding or deleting some detail descriptions of my invention, but I have not introduced any new matter. I insist that all Claims 1-7 are patentable under 35 U.S.C. § 101 and cannot be rejected under U.S.C. § 103(a). Claims 1-7 should be all allowed by your office. I believe that the Claims 1-7 structure and dependent relationship is the best way to show the value of this invention. I require your office to approve my amended specification as soon as possible. Once I get your approval, I will pay the patent issue fee of \$755.

I sent you a letter on May 21, 2010 with the amended claims to reply your "Notice of Allowability" mailed to me on May 17, 2010. I am glad to learn that all my claims are allowable. I sent the "Statement of the Substance of the Interview" to you on May 17, 2010 to response to your "Interview Summary" mailed to me on May 13, 2010. I sent my "Reply to 'Office Communication' and Request to Allow Claims 1-7" to your office on April 27, 2010 to reply your "Office Communication" mailed to me on April 15, 2010. I mailed the "Request for Reopen Prosecution before Examiner on the Decision of the Board of Patent Appeals and Interferences" under 37 CFR § 41.77(b)(1) to your office on February 7, 2010 and on September 27, 2009, which state enough factual merits and legal bases to oppose the Board's decision to sustain your rejection of Claims 1 & 3.

My patent application is very significant in both technology and economy fields. It has consumed ten years of my precious productive life now. I require your office to approve my amended specification as soon as possible. Once my patent is granted, I will apply the venture capital funds to implement it as commercial software products to contribute to our society.

Sincerely,

A handwritten signature in black ink that reads "George G. Yang". The signature is written in a cursive, flowing style.

George Guang Yang, Ph.D., *Pro Per*

Independent Inventor
